**Objective:** Highly motivated and dedicated JavaScript developer seeking an opportunity to contribute to a dynamic software development team. Passionate about front-end development and eager to apply and expand my skills in React to create engaging and intuitive user interfaces.

**Education:** Bachelor of Science (Ed) in Economics , University of Ado Ekiti

### Technical Skills:

- Programming languages: JavaScript, HTML, CSS
- Front-end frameworks: React, Redux
- Version control: Git, GitHub
- UI/UX design principles
- RESTful APIs and integration
- Content Management System
- Responsive web design
- Debugging and troubleshooting

### Projects:

1. MPI website
  - Created the Mosaic section of the web.
  - Utilized Redux for state management and React Router for navigation.
  - Supplied data to the front-end using the Dato CMS.  
link: <https://nigeriapovertymap.com/>
2. PollEasy(Election Management Website)
  - Worked on the war-room section of the application.
  - Implemented the light and dark mode.
  - Styled the cards in the war-room

## Experience:

### Grays International College,Kaduna

Kaduna State, Nigeria

Oct 2012 - Sep 2016

- Taught Economics, and 102 of 166 students had distinction in WAEC.
